## PROJECTS

### Adventurous Llama | Full Stack Developer |

Deployed Link: <https://shrouded-taiga-41631.herokuapp.com/>

Code: <https://github.com/LJBarnes/AdventurousLlama>

This final project at the UNCC coding bootcamp focused on the full stack with a focus on react.js. This app acts like your average dating app but with a bit of a twist, instead of making a connection with someone based on looks, it matches people based on events they want to go to. The “profiles” are populated by ticketmaster api and if you and another person swipe right on a local concert, you will be a connection so you can freely chat with each other and organize going to the event together.

- **Role:** Responsible for front-end API utilization, as well as assisting with back-end bugs
- **Utilized:** HTML5, CSS3, third-party ticketmaster API, React.js, node.js, express, and mongoDB, hosted on heroku

### Portfolio using React.js | Full Stack Developer |

Deployed Link: <https://protected-retreat-78742.herokuapp.com/>

Code: [https://github.com/adamwenger44/react\\_portfolio.github.io](https://github.com/adamwenger44/react_portfolio.github.io)

Portfolio to describe a bit about myself and my background and show off some of my projects that I worked on during the UNCC coding bootcamp

- **Role:** Responsible for single-handedly Designing and Developing the website
- **Utilized:** HTML5, CSS3, React.js, hosted on heroku

### Intuitive Banana | Full Stack Developer |

Deployed Link: <https://drbailey13.github.io/IntuitiveBanana/index.html>

Code: <https://github.com/DrBailey13/IntuitiveBanana>

The purpose of this project is to give the user an immersive music interaction; in that they can search artists, read music related news, find local concerts and access tickets, and enjoy our featured artists and songs.

- **Role:** Responsible for handling front-end API calls to display information related to user searches
- **Utilized:** The purpose of this project is to give the user an immersive music interaction; in that they can search artists, read music related news, find local concerts and access tickets, and enjoy our featured artists and songs.

## EXPERIENCE

**Harris Teeter;** Charlotte, NC

03/2014 - 06/2016

### Cashier

Primary responsibilities were to take care of our customer's needs and to make every shopping visit a pleasant experience. This required manning an IBM register including debit/credit worksheet, in and out cash procedures, coupon management, following correct bagging procedures, providing carryout and parcel pickup service, loading merchandise into customer vehicles, and returning shopping carts into the store.

**Huntley Brothers Construction Company;** Mint Hill, NC

06/2018 – 06/2019

### Footings Crew Laborer

Would lay out the footing and use a transit to make sure that the footings were level and up to code standards, as well as clean out dirt from the footing. Poured concrete into footing up to correct level height to allow crews to build on top of a level concrete surface.

## EDUCATION

**University of North Carolina at Charlotte,** Charlotte, NC

### Full Stack Web Development | Coding Certificate | 2020

A 24-week intensive boot camp program focused on gaining technical programming and market-driven skills in HTML5, CSS3, JavaScript, jQuery, Bootstrap, Express.js, React.js, Node.js, Database Theory, MongoDB, MySQL.

**Pitt Community College,** Winterville, NC

- Attended for one year and earned credits in basic courses
- Major in Information Technology
